Introduction to Business Continuity Management (BCM)

Course Description

This course is a basic introduction to the world of Business Continuity (BC). It is designed as a first step for newcomers to the subject of BC and for those whom BC may be part of their role or responsibilities who need to have a good understanding of the subject.

It provides the new practitioner with the basic knowledge and understanding of the building blocks required for developing or maintaining a robust Business Continuity Management program and gives those individuals with a BC related role or responsibility a comprehensive overview of the discipline.

This course covers all six elements of the BCM Lifecycle and is based on global good practice as described in the Business Continuity Institute's Good Practice Guidelines and the international standard for Business Continuity ISO 22301. It is not preparation for the Certification of the BCI Examination.

Course Objectives

- Understand what business continuity is and how it adds value to organisations.
- Understand how to develop a business continuity policy and programme.
- Understand how to conduct your own business impact analysis.
- Understand how to develop recovery strategies and tactics.
- Understand how to develop effective business continuity plans.
- Understand how to validate and improve their plans through exercise, maintenance and review.
- Understand how to embed business continuity awareness within your organisation.

Who Should Attend?

- Business continuity and resilience newcomers looking for a solid foundation to their learning in the subject of business continuity.
- Individuals with a full time or part time role or responsibility that requires an understanding of business continuity.
- Individuals not yet ready to take the Certificate of the BCI (CBCI) examination.
