Introduction to Organisational Resilience

Course Description

This course is designed to introduce the concept of organisational resilience. It will provide delegates with a practical approach to build on the foundation of their existing skills and knowledge to develop and enhance resilience capabilities for their organisation.

Business Continuity principles and practices are essential to building resilience in organisations. Developing effective resilience capabilities requires a collaborative approach between established management disciplines.

This course reflects on the UK guidance to organisational resilience BS 65000 and the current global thinking at an international level.

Course Objectives

- Provide an overview of organisational resilience
- To engage in workshop discussions about organisational resilience
- To offer examples of what works in practice, e.g. building resilience capabilities

Who Should Attend?

Business continuity and resilience professionals who are already familiar with the concepts of enterprise risk, emergency response, business continuity, crisis management and disaster recovery management.

It is recommended that students have a minimum of a CBCI or equivalent credential with experience working in an organisation in a continuity and resilience related role.

Course Delivery

This BCI training course is delivered as a one day, classroom based course by an approved BCI tutor. During this course delegates will take part in group discussions and activities.

Recommended Reading

It is advisable for delegates to be familiar with the Good Practice Guidelines 2018 prior to attending the course. This can be purchased from the BC Training website.

Certificate of Attendance

A certificate of attendance will be issued to delegates following the completion of the course.

Continuous Professional Development (CPD)

Completing this course will contribute 8 hours towards your Continuous Professional Development.

Course Cost

The cost of this one day training course is £525 plus VAT.
