Live Online Business Impact Analysis (BIA)

Part of the ANALYSIS stage of the BCM Lifecycle

Course Description

This course provides an in-depth look into the Analysis stage of the Business Continuity Management Lifecycle. This course provides the business continuity and resilience professional with the opportunity to gain a deeper understanding of this key skill area.

The course is broken down into modules, exploring the concept of Business Impact Analysis as well as the practical application using a number of different case studies. Delegates have the option of using their own organisation as a case study.

This course is based on the BCI Good Practice Guidelines 2018 and reflects the current global thinking from ISO 22301, ISO 22313 and ISO/TS 22317.

Course Objectives

- Understand the Business Impact Analysis (BIA) process.
- Understand how to structure the BIA process.
- Apply the methods available to conduct a BIA.
- Utilise the information from the BIA to design the most appropriate continuity recovery strategies.

Who Should Attend?

Business Continuity and resilience practitioners who require an in-depth knowledge and an understanding of how to carry out a BIA at all levels of an organisation.

It is recommended that students have a minimum of a CBCI or equivalent credential with experience of working in a continuity and resilience related role.

Course Delivery

This BCI training course is delivered as a two day, live online course by an approved BCI tutor. During the course, delegates will be able to ask the tutor any questions and there will be designated question and answer sections. Scheduled breaks will be provided within each session.

Recommended Reading

It is advisable for delegates to be familiar with the Good Practice Guidelines 2018 prior to attending the course. This can be purchased from the BC Training website.

Live Online Business Impact Analysis (BIA)
