Course Description

The CBCI Online course provides you with the fundamentals to implement a Business Continuity Management (BCM) programme into your organisation and gives you a solid base for a career in business continuity and resilience. The course is based on the Good Practice Guidelines (GPG) Edition 7.0.

This course offers a solid description of the methods, techniques and approaches used by BC professionals worldwide to develop, implement and maintain an effective BCM programme, as described in the Good Practice Guidelines Edition 7.0. It will take each student step by step through the BCM Lifecycle, which sits at the heart of good BC practice.

Course Benefits

- Teaches you not just the 'what' to do, but also the 'why', 'how' and 'when' of good BC practice
- Equips you with the knowledge and understanding you require to be able to practice BC
- Provides an accepted benchmark against which the technical and professional competency of BC professionals can be effectively measured and examine
- Provides practical insights to good BC practice and expertise by learning from some of the best BC professionals in the industry
- Prepares you for the Certificate of the BCI (CBCI) examination

Completing this course will contribute towards your BCI Continuing Professional Development (CPD).

Who Should Attend?

- Business continuity and resilience professionals working in organisations of any type and size, in any industry or sector worldwide.
- Individuals with a full time or part time role or responsibility that requires an understanding of business continuity.
- Individuals who want to take the Certificate of the BCI (CBCI) examination
