Live Online BCI Supply Chain Resilience

Course Description

This BCI Supply Chain Resilience course is about understanding the basics of supply chain management and how to add resilience measures to them, and therefore, the business.

In recent times supply chains have been under increased global pressure and have become more complex due to issues such as the pandemic, border closures, and climate change affects. So, ensuring you build resilience into them is even more vital, now more than ever, for the success of any business.

This one day course comes complete with course slides and a workbook that contains discussion-based activities to be completed throughout the course.

Course Objectives

- Understand the different tiers of supply chain management
- Embed supply chain into your BCM Programme
- Understand the process of outsourcing
- Identify potential supply chain issues
- Validate your supply chain operations

Course Delivery

This BCI training course is delivered as a one day, live online training course by an approved BCI tutor. Scheduled breaks will be provided within each session. During the course, delegates will be able to use their microphones to take part in discussions and ask the tutor any questions, there is also the option to use a webcam too. Interactivity features used during the training may include the use of breakout sessions for group work, polls and quizzes. The course is delivered via GoToTraining.

Recommended Reading

This course is based on the BCI Good Practice Guidelines 2018 and it is advisable for delegates to be familiar with the Good Practice Guidelines 2018 prior to attending the course. A copy of the GPG 2018 can be purchased via our website.

Certificate of Attendance

An electronic certificate of attendance will be issued to delegates following the completion of the course.
