# BC Training LTD

Award-Winning Training Provider
Business Continuity, Resilience and Cyber

From newcomers to experienced professionals, we have a BCM course and learning style to suit everyone

Company Overview

Founded in 2008, BC Training is a leading UK-based business continuity training organisation with a mission to provide an exceptional and valuable training experience.

We are a Business Continuity Institute (BCI) Global Training Partner and a PECB Authorised Partner. Our BCT Certificate in Cyber Incident Management course is also certified by the National Cyber Security Centre (NCSC).

BC Training offers a wide range of courses to suit every level, from introductory training for newcomers to business continuity, through to the industry standard CBCI Certification Course, and advanced courses for experienced practitioners. We also develop bespoke training and exercises tailored to the requirements of our clients, as well as providing consultancy services. Our public face-to-face courses take place throughout the UK, Ireland and mainland Europe, while we deliver live online training, in-house training and consultancy services across the globe.

BC Training is an award-winning organisation and most recently won the BCI Europe Award for Continuity and Resilience Provider for a Service or Product 2023.

Courses

Introductory

BCI Introduction to Business Continuity

This course is designed as a first step for newcomers to the subject of business continuity, those wanting to start a career in business continuity, and for those whom business continuity may be a part of their role or responsibilities who need to have a good understanding of the subject.

🕐 **1 Day**

from £525.00 +VAT

Certified

CBCI Certification Course

Designed for those individuals seeking to complement practical experience in business continuity or a related field through some formal BC training. Based on the Good Practice Guidelines (GPG), this course prepares delegates for the CBCI examination.

🕐 **4 or 5 Days plus Online Exam**   **from £1,850.00 +VAT**

BCT Certificate in Cyber Incident Management (NCSC Assured Training)

A non-technical course, aimed at preparing organisations to manage their cyber response at the strategic/crisis management level. Topics include cyber risk assessments, playbook development, GDPR reporting incidents and reputation management.

🕐 **2 Days plus Online Exam**   **from £1,500.00 +VAT**

Specialist

BCI Business Impact Analysis (BIA)

The BIA is the main technique used for analysing an organisation. This course will help you to understand how to understand and apply the different methods available to conduct a BIA.

🕐 **2 Days**   **from £1,050.00 +VAT**

BCI Designing and Delivering Effective Exercises

This course aims to provide an understanding of how to design, facilitate and report on exercises for crisis, emergency, and business continuity management programmes.

🕐 **2 Days**   **from £1,050.00 +VAT**

BCI Incident Response and Crisis Management

This course covers all aspects of developing and implementing an incident response structure and crisis management capability.

🕐 **2 Days**   **from £1,050.00 +VAT**

BCI Supply Chain Resilience

This course is about understanding the basics of supply chain management and how to add resilience measures to them, and therefore, the business.

🕐 **1 Day**   **from £525.00 +VAT**

Writing Business Continuity Plans

This course provides delegates with the key skills needed to develop effective business continuity plans at small to global sized organisations.

🕐 **1 Day**   **from £525.00 +VAT**

BCM-IT

IT Disaster Recovery

This course takes delegates through the IT DR Plan lifecycle from understanding the key business drivers, examining the various strategic options available that determine the shape of the IT DR Plan, through to ensuring that a completed plan is fit-for-purpose.

🕐 **2 Days**   **from £1,050.00 +VAT**

Crisis Communications and Public Relations after a Cyber Security Incident

This course will teach participants how to understand the requirements of responding to a cyber incident and how to develop appropriate communications under the particular circumstances of a cyber incident.

🕐 **1 Day**   **from £525.00 +VAT**

E-Learning

CBCI Online Training Course with Exam

The CBCI Online course provides you with the fundamentals to implement a Business Continuity Management (BCM) programme into your organisation and gives you a solid base for a career in business continuity and resilience.

🕐 **24 Hours, 6 Weeks**   **from £1,670.00 +VAT**

Ideal for company-wide training, the following e-learning courses are available in a number of packages: ⬇

Our Clients Love Working With Us

"What a thoroughly useful course this proved to be. The course was pacy enough to maintain interest, yet there was plenty of time to discuss aspects of the course that we needed more insight into. The team learnt so much and feel ready and fully equipped for any eventuality."

Chantelle Binley
Next Plc

★★★★★

"A fantastic course. Extremely well put together and delivered on all counts. The exam was incredibly hard but the advice and guidance of the instructor [James McAlister] was spot on and it is all down to the amount of revision effort put in by the student. I would recommend this course and method of learning to anyone who was interested in attaining the CBCI qualification. BCT are a pleasure to deal with in terms of customer service and all administrative processes. Many thanks to all involved. "

Louise Parker
